This was an incredibly worthwhile and fun experience. Entering the British Airways Concorde was an especially memorable experience; it was a breathtaking sight to see such a popular feat of aeronautical engineering up close, and it brought what we had learnt to life. Everyone was enthusiastic, supportive, and equally passionate about engineering, creating an amazing learning environment and a wonderful opportunity to connect with like minded people.

The banking work experience was incredibly insightful. I came in with limited business knowledge and learned so much. I'd 100% recommend this to anyone considering banking or finance at university.
